Victim Impact Statement

At least twenty one pieces of mail that I sent were intercepted or lost. Some of the intended recipients did receive mail months after it was delivered. One item was sent to [REDACTED] with a twenty dollar bill enclosed. The card was never received. A second card was mailed to [REDACTED] with a check enclosed . The card was never received and the check was never cashed.

I feel that the accused should make restitution for the twenty dollars. She should be punished for her crimes. The check was never cashed but a crime of intent was committed.

If the victim is herself a victim of drug abuse, I would encourage the judge to get her the treatment she needs. She should have to do some community service, wear a GPS monitor, attend support meetings and make restitution to all those victims who have suffered a monetary loss. I do not think that she would receive the help that she needs if sent to prison. If freed, she should be closely monitored with a strong support system in place so she can truly be rehabilitated. After all she did commit many crimes.

I am writing this letter on behalf of my husband, [REDACTED] and myself.

Sincerely,

[REDACTED]
